

REMARKS

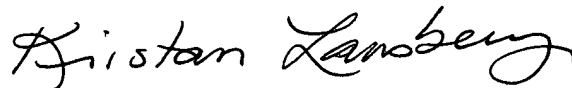

By way of the present amendment, the specification has been amended to indicate the relationship of the present application to the priority documents. Claims 19-40 are pending after entry of the present amendment. Support for the new claims may be found in the original figures, original claims, and in the specification. No new matter is introduced by the foregoing amendment, and its entry is respectfully requested.

Please find enclosed a substitute specification amending the originally filed specification to reference sequences of four or more amino acids in the text of the description by use of their sequence identifier. Please also find a substitute sequence listing. Support for the foregoing substitute specification and sequence listing may be found throughout the specification as filed, in the original claims, and in the original sequence listing as filed. No new matter enters by way of this submission. Pursuant to 37 C.F.R. § 1.125, a marked-up version of the substitute specification is also submitted herewith. Applicants respectfully request entry of the substitute specification. *See* MPEP § 608.

CONCLUSION

In view of the above, each of the presently pending claims is believed to be in immediate condition for allowance. Accordingly, the Examiner is respectfully requested pass this application to issue.

Respectfully submitted,

David R. Marsh (Reg. No. 41,408)

Kristan L. Lansbery (Reg. No. 53,183)
